PROFESSIONAL SUMMARY

Computer Applications postgraduate with hands-on experience in full-stack development using Python, Flask, and MySQL, including building an Outpatient Queue and Token Management System. Certified in Cloud Solution Architecture and Applied Machine Learning & Deep Learning, with strong skills across HTML, CSS, JavaScript, React.js, and Node.js. Seeking a Full-Stack or Python/Flask Developer role.

PROJECTS

Smart Classroom & Timetable Scheduler — Smart India Hackathon (SIH) 2025 — Team Project Dec 2025

Stack: Python (Flask/Django), MySQL/PostgreSQL, React, scikit-learn, OR-Tools

- Proposed an AI-powered timetable scheduler to optimize multi-grade classroom teaching for under-resourced schools, built as part of a Smart India Hackathon 2025 team submission.
- Designed the system to auto-adjust schedules in real time during teacher absences or disruptions using AI/ML-based constraint optimization.
- Architected an offline-first, multilingual solution aimed at rural classrooms, with real-time alerts and dashboards for teachers and students.
- Planned the technical approach across a full stack: React frontend, Flask/Django backend, MySQL/PostgreSQL storage, and Docker/Kubernetes deployment on AWS/GCP.

Outpatient Queue and Token Management System — Academic Project May 2026

Stack: Python, Flask, HTML, CSS, JavaScript, MySQL |

[Project Link](#)

Built a computerized OPD queue management system to replace manual token handling, cutting patient waiting time and streamlining hospital front-desk workflow.

- Designed automated token generation logic in Flask with a MySQL backend to track patient records and queue status in real time.
- Implemented priority handling for urgent cases alongside standard queue logic, improving overall patient experience.
- Developed the frontend with HTML, CSS, and JavaScript for a responsive, easy-to-use interface for hospital staff.

KEY SKILLS

Programming Languages: Core Java, OOP, Data Structure, Linux, Python, C

Web Technologies: HTML, CSS, JavaScript, React.js, Next.js (Basic)

Backend & Databases: Flask, Spring Boot(Basic), Node.js, MySQL, MongoDB

Tools & Concepts: Git, GitHub, REST APIs, SDLC, Problem-Solving, Debugging

Professional Skills: Time Management, Team Management, Adaptability, Active Listening, Decision-Making

EDUCATION

Master of Computer Application — Integral University, Lucknow 2025 – Present

Bachelor of Arts — Deen Dayal Upadhyay University, Gorakhpur 2021 – 2024

Intermediate (12th) — M.S.I Inter College, Gorakhpur 2021 – U.P Board

High School (10th) — M.S.I Inter College, Gorakhpur 2019 – U.P Board

CERTIFICATIONS

- Cloud Solution Architect — 30-Hour Value Added Course, Dept. of Computer Application, Integral University (Jan–Mar 2026)
- Applied Machine Learning and Deep Learning with Python — 30-Hour Value Added Course, IUCARE, Integral University (Apr–May 2026)

ACHIEVEMENTS AND EXTRACURRICULAR ACTIVITIES

- Member, Binary Battalion Coding Club — participate in coding and technical activities alongside peers.
